

GLENDALE MUNICIPAL BOND ELECTION

ORDINANCE NO. 279

AN ORDINANCE OF THE CITY OF GLENDALE CALLING A SPECIAL ELECTION TO BE HELD IN THE CITY OF GLENDALE ON THE 20TH DAY OF DECEMBER, 1915, AND SUBMITTING TO THE QUALIFIED VOTERS OF THE SAID CITY THE PROPOSITIONS OF INCURRING INDEBTEDNESS FOR THE ACQUISITION AND CONSTRUCTION OF CERTAIN MUNICIPAL IMPROVEMENTS, PROVIDING FOR THE ISSUANCE OF BONDS THEREFOR, SUBDIVIDING THE CITY INTO ELECTION PRECINCTS, DESIGNATING THE POLLING PLACES AND APPOINTING ELECTION OFFICERS FOR SAID ELECTION.

WHEREAS, the Board of Trustees of the City of Glendale at its regular meeting held on the 22nd day of September, 1915, by a vote of more than two-thirds of all its members duly passed and adopted a resolution determining:

That the public interest and necessity demand the acquisition by the City of Glendale of a certain municipal improvement, to-wit:

Fire-fighting apparatus and equipment, including an automobile pumping engine, hose and other fire-fighting equipment.

That the estimated cost of said municipal improvement is Thirteen Thousand (\$13,000) Dollars, and is and will be too great to be paid out of the ordinary annual income and revenue of the municipality. Said improvement would require an expenditure greater than the amount allowed for the same by the annual tax levy; and whereas said resolution was duly signed and approved by the President of the Board of Trustees of said city on the 22nd day of September, 1915, and was attested and certified to by the City Clerk and was duly published on the 24th day of September, 1915, in The Glendale Press, a weekly newspaper printed, published and circulated in the City of Glendale, and

WHEREAS, the Board of Trustees of the City of Glendale at its regular meeting held on the 21st day of October, 1915, by a vote of more than two-thirds of all its members duly passed and adopted a resolution determining:

That the public interest and necessity demand the acquisition and construction by the City of Glendale of a certain municipal improvement, to-wit:

The building and constructing of dikes, dams, banks, levees, culverts, gutters, piles, pavement, pillars and walls for the protection of the property of said city from overflow by the Verdugo Canyon wash and Sycamore Canyon wash in said city; the acquisition of necessary easements and rights of way over which to construct and carry out said improvements and do and perform all things necessary to improve the banks and beds of said washes in such a way and manner as will protect the property in said city from overflow and destruction therefrom by storm and surface water.

That the estimated cost of said municipal improvement is Seventy Thousand (\$70,000.00) Dollars, and is and will be too great to be paid out of the ordinary annual income and revenue of the municipality. Said improvement would require an expenditure greater than the amount allowed for the same by the annual tax levy; and whereas said resolution was duly signed and approved by the President of the Board of Trustees of the said city on the 21st day of October, 1915, and was attested and certified to by the City Clerk and was duly published on the 22nd day of October, 1915, in the Glendale Evening News, a daily newspaper printed, published and circulated in the City of Glendale:

NOW, THEREFORE, the Board of Trustees of the City of Glendale do ordain as follows:

SECTION 1. That a special election be held and the same is hereby called to be held in the City of Glendale on the 20th day of December, 1915, for the purpose of submitting to the qualified voters of said city the propo-

sitions of incurring indebtedness and issuing bonds of said city in the amount and as hereinafter set forth and for the purposes set forth in said resolutions hereinbefore referred to and as hereinafter stated.

SECTION 2. That the objects and purposes for which said indebtedness is proposed to be incurred and bonds issued therefor, are as follows, to-wit:

FIRST PROPOSITION.—The acquisition by the City of Glendale of a certain municipal improvement and utility, to-wit: Fire-fighting apparatus and equipment, including an automobile pumping engine, hose and other fire-fighting equipment.

SECOND PROPOSITION.—The acquisition and construction by the City of Glendale of a certain municipal improvement, to-wit: The building and construction of dikes, dams, banks, levees, culverts, gutters, piles, pavement, pillars and walls for the protection of the property of said city from overflow by the Verdugo Canyon wash and Sycamore Canyon wash in said city; the acquisition of necessary easements and rights of way over which to construct and carry out said improvements and do and perform all things necessary to improve the banks and beds of said washes in such a way and manner as will protect the property in said city from overflow and destruction therefrom by storm and surface water.

SECTION 3. That the estimated cost of said proposed municipal improvement, described in Section 2 hereof, and designated as first proposition, to-wit: Fire-fighting apparatus and equipment, including an automobile pumping engine, hose and other fire-fighting equipment, is Thirteen Thousand (\$13,000.00) Dollars; that the amount of the principal of the indebtedness to be incurred therefor, is the sum of Thirteen Thousand (\$13,000.00) Dollars, and that the rate of interest to be paid on said indebtedness shall be five per cent (5 per cent) per annum payable annually; that if the proposition for incurring said indebtedness for said purpose so submitted at said election, receives the requisite number of votes, to-wit, two-thirds of the votes of the qualified voters voting at such election, bonds of said city in the amount of Thirteen Thousand (\$13,000.00) Dollars shall be issued and sold for the purpose of acquiring and constructing said municipal improvement; both principal and interest of said bond shall be payable in gold coin of the United States of the present standard weight and fineness.

SECTION 4. That the estimated cost of said municipal improvement, described in Section 2 hereof and designated as second proposition, to-wit: The building and construction of dikes, dams, banks, levees, culverts, gutters, piles, pavement, pillars and walls for the protection of the property of said city from overflow by the Verdugo Canyon wash and Sycamore Canyon wash in said city; the acquisition of necessary easements and rights of way over which to construct and carry out said improvements and do and perform all things necessary to improve the banks and beds of said washes in such a way and manner as will protect the property in said city from overflow and destruction therefrom by storm and surface water, is the sum of Seventy Thousand (\$70,000.00) Dollars; that the amount of the principal of the debt to be incurred therefor, is the sum of Seventy Thousand (\$70,000.00) Dollars, and that the rate of interest to be paid on said indebtedness shall be five per cent (5 per cent) per annum, payable semi-annually; that if the proposition for incurring said indebtedness for said purpose, so submitted at said election, receives the requisite number of votes, to-wit, two-thirds of the votes of the qualified voters voting at such election, bonds of said city in the amount of Seventy Thousand (\$70,000.00) Dollars shall be issued and sold for the purpose of acquiring and constructing said municipal improvement; both principal and interest of said bonds shall be payable in gold coin of the United States of the present standard weight and fineness.

SECTION 5. The polls for said election shall be opened at six o'clock

on the morning of the day of the election, and shall be kept open until seven o'clock of the afternoon of the same day, when the polls shall be closed, except and provided, however, that if at the said hour of closing there are any voters in the polling place, or in the line at the door thereof, who are qualified to vote, and have not been able to do so since appearing, the polls shall be kept open a sufficient time to enable them to vote. But no one who shall arrive at the polling place after seven o'clock in the afternoon shall be entitled to vote, although the polls may be open when he arrive.

The ballot to be used at said election shall be printed substantially in the following form:

INSTRUCTION TO VOTERS

To vote on either proposition of incurring a debt for the purposes specified in such proposition, stamp a cross (X) in the voting square to the right of and opposite the answer you desire to give.

ALL MARKS EXCEPT THE CROSS (X) ARE FORBIDDEN.

ALL DISTINGUISHING MARKS OR ERASURES ARE FORBIDDEN, AND MAKE THE BALLOT VOID.

If you WRONGLY STAMP, TEAR or DEFACE THIS BALLOT, return it to the inspector of the election and obtain another.

Shall the City of Glendale incur a bonded debt of Thirteen Thousand (\$13,000.00) Dollars for the purpose of acquiring fire-fighting apparatus and equipment, including an automobile pump engine, hose and other fire-fighting equipment?

YES

NO

Shall the City of Glendale incur a bonded debt of Seventy Thousand (\$70,000.00) Dollars for the purpose of building and constructing dikes, dams, banks, levees, culverts, gutters, piles, pavement, pillars and walls for the protection of the property of said city from overflow by the Verdugo Canyon wash and Sycamore Canyon wash in said city; the acquisition of necessary easements and rights of way over which to construct and carry out said improvements, and do and perform all things necessary to improve the banks and beds of said washes in such a way and manner as will protect the property in said city from overflow and destruction therefrom by storm and surface water?

YES

NO

SECTION 6. That for the holding of the said election said city is hereby divided and sub-divided into four municipal election precincts, as follows; and the boundaries of said four precincts and polling places of same are hereby fixed and established by the Board of Trustees of the City of Glendale, as follows; and the following named persons are hereby appointed officers of election for such election respectively:

MUNICIPAL ELECTION PRECINCT No. 1

All that portion of the City of Glendale lying north of the center line of Broadway, and the easterly continuation thereof to the easterly city limits, and east of the center line of Louise street.

Polling Place: Tent Southeast corner of Third Street and Glendale avenue.

Inspectors: Mrs. Cora M. Nichols, H. P. Coker.
Judges: Mrs. Jennie Newcomb, William Thomson.
Clerks: C. E. Parker, Thos. D. Ogg.

MUNICIPAL ELECTION PRECINCT No. 2

All that portion of the City of Glendale lying north of the center line of Broadway and west of the center line of Louise street.

Polling Place: Brick building Southeast corner of Second street and Brand Blvd.

Inspectors: Chas. J. Wolf, Mrs. May C. Church.
Judges: Samuel P. Stoddard, E. H. Kerker.
Clerks: Mrs. Emma B. Moore, R. M. Jackson.

MUNICIPAL ELECTION PRECINCT No. 3

All that portion of the City of Glendale lying north of the center line of Broadway, west of the center line of Louise street and the southerly prolongation thereof to the south city limits.

Polling Place: Tent Northeast corner Lomita avenue and Brand Blvd.
Inspectors: William H. Sholes, Mrs. Mary E. Echols.
Judges: Morris E. Caruthers, John Wright.
Clerks: Mrs. Minnie McMullen, M. W. Chandler.

MUNICIPAL ELECTION PRECINCT No. 4

All that portion of the City of Glendale lying south of the center line of Broadway and the easterly prolongation thereof to the east city limits, and east of the center line of Louise street and the southerly prolongation thereof to the south city limits.

Polling Place: Tent northeast corner Glendale avenue and Colorado boulevard.

Inspectors: J. N. McGillis, M. H. Frisbie.
Judges: H. A. Goodwin, Mrs. Alice Woodberry.
Clerks: J. H. Redman, Mrs. Ella F. Meeker.

SECTION 7. That in all particulars not recited in this ordinance said election shall be held as provided by law for holding of municipal elections in said city.

SECTION 8. The City Clerk shall certify to the passage and adoption of this Ordinance by a vote of two-thirds of all the members of the Board of Trustees of said city, and its approval by the President of said Board of said city, and shall cause the same to be published once a day for at least seven days in the Glendale Evening News, a daily newspaper printed, published and circulated in the City of Glendale, and thereupon and thereafter it shall take effect and be in full force.

Adopted and approved this 6th day of December, 1915.

(Seal) O. A. LANE,
President of the Board of Trustees of the City of Glendale.
Attest: J. C. SHERER,
City Clerk of the City of Glendale.

STATE OF CALIFORNIA, ss.
County of Los Angeles.

I, J. C. SHERER, City Clerk of the City of Glendale, do hereby certify that the whole number of members of the Board of Trustees of the City of Glendale is five (5), and that the foregoing Ordinance was passed and adopted by a vote of two-thirds of all its members and approved by the President of said Board at a regular meeting thereof held on the 6th day of December, 1915, and that the same was passed and adopted by the following vote, to-wit:

AYES—Grist, Lane, Thompson, Williams.
NOES—None.
ABSENT—Tower.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the City of Glendale, the 6th day of December, 1915.

J. C. SHERER,
City Clerk of the City of Glendale.

NO WORD RECEIVED FROM "MINNESOTA"

SAN FRANCISCO AUTHORITIES FEAR MUTINEERS HAVE SEIZED THE LINER'S WIRELESS

(Special Service to Glendale Evening News)
SAN FRANCISCO, Dec. 7.—Authorities here expressed the fear today that something further had gone wrong with the liner Minnesota, which was disabled by its crew off the coast of Lower California. No word was received from the liner this morning. It is feared that the mutineers may have set the vessel on fire or that they have seized the wireless. The failure of the captain to report the condition and whereabouts of his vessel today is considered ominous.

AUSTRIANS SINK FRENCH SUBMARINE

CRUISER SENDS THE FRESNEL TO THE BOTTOM OF THE SEA OF MARMORA AND CAPTURES CREW

(Special Service to Glendale Evening News)
PARIS, Dec. 7.—While operating at the entrance to the Sea of Marmora today the French submarine Fresnel was caught and sunk by an Austrian cruiser. The whole crew of 26 was captured. Austrian naval vessels are displaying much activity in that quarter.

MANIAC TERRIFIES SAN BERNARDINO TOWNS

POSSE CAPTURES LUNATIC WHO HAD ESCAPED FROM PATTON STATE HOSPITAL

(Special Service to Glendale Evening News)
SAN BERNARDINO, Dec. 7.—After scouring the hills in every direction a posse this morning captured Frank Bruce, a dangerous maniac, who had escaped from Patton State Hospital. Bruce, after getting away from the insane asylum, entered the little towns of Highland and Rialto and practically paralysed all business there. The inhabitants shut themselves up in their houses and barricaded their stores.

SERVIANS REACH ALBANIA SAFELY

KING PETER'S TROOPS CLEVERLY SCATTER AMONG THE HILLS AND REFORM BEYOND GERMAN REACH

(Special Service to Glendale Evening News)
ATHENS, Dec. 7.—After having scattered cleverly among the hills of Albania, making pursuit by the Austro-German forces almost an impossibility, Servian troops to the number of 125,000, reformed today beyond the reach of the Teutons, and are marching to join other bands.

GERMANS TAKE EVACUATED TOWN

SERVIANS CLEAR OUT OF IPEK IN EASTERN MONTENEGRO AND TEUTONS OCCUPY THEIR QUARTERS

(Special Service to Glendale Evening News)
BERLIN, Dec. 7.—After a slow retreat to Ipek, where they halted for some time, rearranging their forces, collecting stragglers and getting into shape for the road the Servian forces which have been falling back on Eastern Montenegro have evacuated that city. For some time they put up a strong defense and held the German forces back. Then they quietly moved out of the town and the Teuton forces moved in.

STORM IMPERILS BRITISH TROOPS

ARMY ON GALLIPOLI PENINSULA IS SHORT OF WATER AND OF FOOD

(Special Service to Glendale Evening News)
CONSTANTINOPLE, Dec. 7.—Constant storms are sweeping the Dardanelles and the Gallipoli peninsula, making it impossible for the British to land food and supplies for their troops there. Water, also, is scarce, and the whole British army is in a most perilous position. A strong assault has been ordered on their trenches and the Turkish forces are moving forward to the attack.

BULGARIANS SURPRISE THE FRENCH

SUDDEN ATTACK ON GALLIC TROOPS NEAR SALONIKI STARTS FIERCE BATTLE

(Special Service to Glendale Evening News)
ATHENS, Dec. 7.—The Bulgarian army delivered a surprise attack on the French right flank today, near Saloniki. The French troops were ready in response, and a steady fire from rifles and machine guns decimated the ranks of the assaulting troops. In some places the Bulgarians penetrated to the trenches, but were driven back with the bayonet.

ESTELLE LAWTON LINDSEY TO SPEAK

A most interesting program will be given Wednesday afternoon at the meeting of the Political Science section of the Tuesday Afternoon club. Mrs. Estelle Lawton Lindsey of the Los Angeles council, a very brilliant woman, will speak at the Intermediate school at 4 o'clock on the subject, "Woman in City Government."

Since Mrs. Lindsey has given this splendid talk before large clubs on their regular program it is hoped that her courtesy in appearing before the Political Science section will be rewarded with a large attendance.

Non-club members as well as club members are cordially invited to be present and to bring guests, for Mrs. Lindsey has a stirring message for every woman. Any gentlemen interested in the subject will also be welcome. Preceding Mrs. Lindsey's address

the study hour of the section will convene at 2:30 p. m. at the home of Mrs. A. L. Weaver, 235 So. Kenwood street. The study for the day is "Colonial Origin of American Institutions" and will include a paper by Mrs. Oliver O. Clark on the subject and historical review on the early settlement in Virginia, and the paper written by Miss Elizabeth Ainsworth on the subject "The Development of Local Self Government in Virginia." To this study hour all members of the Tuesday Afternoon club and their friends are cordially invited.

WEE DAUGHTER ARRIVES

The home of Mr. and Mrs. P. Oliver at 429 South Kenwood street was brightened today, the 7th of December, by the arrival of a little daughter. Mother and babe are doing nicely.

BETROTHAL DINNER

A number of formal and informally pleasant things have been interesting the socially inclined during the past week and many pleasures are anticipated for the busy days that are being marked on the social calendar for the month that is just opening and whose gayeties will mark the end of the year and the beginning of the new. Among those who extended their charming hospitality are Mrs. G. Phillips and her sister, Miss Eva Daniels, who entertained with an elaborate and novel dinner party at the home of Mrs. Phillips, 1424 West Colorado Boulevard, on Sunday. The decorations were exceedingly beautiful and stamped the celebration of the betrothal of their niece, Miss Josephine Daniels, to Mr. H. B. Miller of Boston, Mass. The dinner was arranged to take place at the same time

as the festivities started in Boston and telegrams were read at the tables, which passed between both families on the Pacific and Atlantic coasts.

Cards marked places for Mr. and Mrs. Salo Desky, Mr. and Mrs. Geo. E. Daniels, Mrs. G. Phillips, Miss Helen Daniels, Miss Reba Phillips, Miss Eva Daniels, Mr. I. H. Frankel, Mr. Victor Daniels and Mr. H. W. Phillips. The cards were later used to pen a pretty sentiment on and sent to the happy couple which will be read by them in Boston a week hence.

The bride-elect was a visitor in Glendale about two years ago and then made many dear friends.

WEATHER FORECAST—Fair tonight and Wednesday; increasing cloudiness; northeast winds.

GLENDALE, CALIFORNIA, TUESDAY, DECEMBER 7, 1915

ORDINANCE NO. 277

AN ORDINANCE DECLARING THE INTENTION OF THE BOARD OF TRUSTEES OF THE CITY OF GLENDALE TO ORDER THE LAYING OUT AND OPENING OF PENN STREET IN SAID CITY.

The Board of Trustees of the City of Glendale do ordain as follows:

SECTION 1. That the public interest and convenience require and it is the intention of the Board of Trustees of the City of Glendale to order the following improvement to be made, to-wit:

That Penn Street be laid out and opened from the easterly line of Columbus Avenue to the westerly line of Central Avenue in said city.

SECTION 2. That the land necessary and convenient to be taken for the improvement described in Section 1 hereof is situated in the City of Glendale, County of Los Angeles, State of California, and is more particularly described as follows, to-wit:

First: Lot B, of Tract Number 2782, as per map recorded in Book 28, page 14, of Maps, Records of Los Angeles County, California.

Second: All that part of Lot A of said Tract Number 2782 and Lot 30 of Riverdale Heights, as per map recorded in Book 4, page 1, of Maps, Records of Los Angeles County, California, lying Twenty-five (25) feet either side of, parallel and contiguous to the following described center line, to-wit: Beginning at the Northwest corner of said Lot A of Tract Number 2782; thence North 89 degrees 45 minutes East, Four hundred seven and ninety hundredths (407.90) feet, to the Northeast corner of said Lot A.

SECTION 3. That the boundaries of the district in the City of Glendale to be benefited by said improvement and to be assessed to pay the expenses thereof and to be known as the assessment district, are hereby fixed as follows:

All that portion of the City of Glendale included within the following described exterior boundary lines, to-wit: Beginning at a point where the Southerly boundary line of the City of Glendale is intersected by the West line of Central Avenue; thence West along said Southerly boundary line to the East line of Pacific Avenue; thence North along said East line of Pacific Avenue to a point One hundred fifty (150) feet North from the North line of Penn Street; thence East parallel with Penn Street to the West line of Columbus Avenue; thence Southeasterly to the Northwest corner of Lot C of aforesaid Tract Number 2782; thence East along the North line of said Lot C and the Easterly prolongation of the

of to the West line of Central Avenue; thence South along said West line to the point of beginning. Excepting therefrom, any portion of public street or alley which may be included within the above described assessment district.

SECTION 4. That the proceedings for the aforesaid improvement shall be taken under the "Street Opening Act of 1903," and the Street Superintendent of the City of Glendale shall post and publish notices of said improvement in the manner and for the time required by said act; and The Glendale Evening News, a daily newspaper of general circulation, published and circulated in said City of Glendale, is hereby designated as the newspaper in which said notice shall be published.

SECTION 5. The City Clerk shall certify to the passage of this Ordinance and shall cause the same to be published once in the Glendale Evening News, and thereupon and thereafter it shall take effect and be in full force.

Adopted and approved this 1st day of Nov., 1915.

A. W. TOWER, President pro tem of the Board of Trustees of the City of Glendale. Attest: J. C. SHERER, City Clerk of the City of Glendale.

STATE OF CALIFORNIA, County of Los Angeles, City of Glendale.

I, J. C. SHERER, City Clerk of the City of Glendale, do hereby certify that the foregoing Ordinance was duly adopted by the Board of Trustees of the City of Glendale, State of California, and signed by the President of said Board at a regular meeting thereof held on the 1st day of Nov., 1915, and that the same was passed by the following vote, to-wit:

AYES—Grist, Thompson, Tower, Williams. NOES—None. ABSENT—Lane.

J. C. SHERER, City Clerk of the City of Glendale. 9111

RESOLUTION NO. 883

A RESOLUTION OF THE BOARD OF TRUSTEES OF THE CITY OF GLENDALE ORDERING A PORTION OF STANLEY AVENUE TO BE CLOSED UP, VACATED AND ABANDONED AS CONTEMPLATED BY RESOLUTION OF INTENTION NUMBER 870.

The Board of Trustees of the City of Glendale do resolve as follows:

SECTION 1. That all that portion of Stanley Avenue lying East of the Southerly prolongation of the

FOR CHRISTMAS

East line of the Hannover Tract, as per map recorded in Book 12, page 159, of Maps, Records of Los Angeles County, California, said portion of Stanley Avenue to be vacated being twenty-five (25) feet wide by two hundred and ninety (290) feet, more or less, long, be and the same is hereby closed up, vacated and abandoned for street and alley purposes.

SECTION 2. That said work is for the closing up of that certain avenue more particularly described in Section 1 hereof, and it appears to said Board of Trustees that there are no damages, costs or expenses arising out of said work, and therefore, no commissioners are appointed to assess benefits and damages for said work and to have general supervision thereof.

SECTION 3. The City Clerk shall certify to the passage of this Resolution and cause the same to be published once in the Glendale Evening News, a daily newspaper of general circulation, published and circulated in said City of Glendale, and thereupon and thereafter the same shall be in full force and effect.

Adopted this 6th day of December, 1915.

O. A. LANE, President of the Board of Trustees of the City of Glendale. Attest: J. C. SHERER, City Clerk of the City of Glendale.

STATE OF CALIFORNIA, City of Glendale.

I, J. C. SHERER, City Clerk of the City of Glendale, do hereby certify that the foregoing Resolution was duly passed by the Board of Trustees of the City of Glendale and signed by the President of said Board at a regular meeting thereof, held on the 6th day of December, 1915, and that the same was passed by the following vote:

AYES—Grist, Lane, Thompson, Tower, Williams. NOES—None. ABSENT—None.

J. C. SHERER, City Clerk of the City of Glendale. 9111

RESOLUTION NO. 882

A RESOLUTION OF THE BOARD OF TRUSTEES OF THE CITY OF GLENDALE ORDERING THAT ALL THAT PORTION EXCEPT THE NORTH TWO HUNDRED (200) FEET OF THAT CERTAIN ALLEY EXTENDING FROM THIRD STREET TO SECOND STREET IN BLOCK SEVEN OF THE TOWN OF GLENDALE BE CLOSED UP, VACATED AND ABANDONED AS CONTEMPLATED BY RESOLUTION OF INTENTION NUMBER 777.

The Board of Trustees of the City of Glendale do resolve as follows:

SECTION 1. That all that portion except the north two hundred (200) feet of that certain alley extending from Third street to Second street in Block Seven (7) of the Town of Glendale as per map recorded in Book 21, pages 89 and 90 of Miscellaneous Records of Los Angeles County, California, be, and the same is hereby, closed up, vacated and abandoned for street and alley purposes.

SECTION 2. That said work is for the closing up of that certain alley more particularly described in Section 1, hereof, and it appears to said Board of Trustees that there are no damages, costs or expenses arising out of said work, and therefore, no commissioners are appointed to assess benefits and damages for said work and to have general supervision thereof.

SECTION 3. The City Clerk shall

TROPICO

Mrs. William A. Hough of West Tenth street was very agreeably surprised Sunday to have as her guests her aunt and cousins, Mrs. John Pritchard, Mrs. Callie Pritchard and Miss Vivian Pritchard, of St. Louis, Mo., early Sunday morning. Mrs. Pritchard and daughters very cleverly planned their surprise on Mrs. Hough and family, for the Hough household were not aware that Mrs. Pritchard and family were in California.

The annual election of officers of N. P. Banks Post, No. 170, G. A. R., will be held Saturday afternoon, December 11, in Grand Army headquarters in G. A. R. hall on North Glendale avenue. All members invited to attend the meeting.

N. P. Banks Woman's Relief Corps will hold the annual election of officers Friday afternoon, December 10, in G. A. R. hall. All corps members as well as visiting members invited to attend this meeting.

Miss Faye Daniels of Los Angeles is enjoying a few days' visit at the home of her sister, Mrs. Percy Pritchard, on West Park avenue.

A goodly number of the citizens of Tropic attended the Christian Science lecture held in the Glendale Union High School Monday evening.

Mrs. J. E. Bahrenberg of "Twin Pines" on West Park avenue is quite ill at the home of Mrs. U. F. McConnell in Los Angeles.

U. S. 1916 ESTIMATES

(Special Service to Glendale Evening News) WASHINGTON, D. C., Dec. 7.—Appropriations necessary to run the government and provide adequate naval and military defense, submitted to congress breaks all records. The total amounts to \$1,585,728,628. That is \$170,853,614 more than was appropriated last year. None of the estimates was less than that of last year. It is estimated that it will take \$2,000,000 to collect the income tax, an increase of \$1,000,000 over last year.

PAY THE COLLECTOR

Wm. Thomson has been employed by the Glendale Evening News to collect subscriptions and advertising accounts due the Evening News. Up to date Mr. Thomson has received very courteous treatment which comprises mainly the money due as per account rendered. No one finds fault, no one looks unpleasant but everybody smiles and pays.

A LECTURE ON CHRISTIAN SCIENCE

ENTITLED GOD IS GOOD

BY
GEORGE SHAW COOK, C. S. B.

Member of the Board of Lectureship of the Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

A large and attentive audience was present last evening at the High School auditorium to hear the lecture on Christian Science by George Shaw Cook, C. S. B. Mr. Russell Kilgore, First Reader of the local Christian Science Church, introduced the speaker as follows: "Centuries ago men were looking forward to the appearing of a Saviour, to the coming of the Christ that had been promised by sage and prophet. In answer to the need of the age, the Saviour came, and has been known to the world as Jesus, the Christ. His ministry was attended by many wonderful works. He fed the multitudes, comforted the sorrowing, cleansed the lepers, cast out devils, healed the sick and raised the dead. He asked to be judged by his works and commanded his followers to do these same works.

Centuries later, Mary Baker Eddy, in establishing the Christian Science Church, named its purpose to be "to commemorate the words and works of our Master, which should reinstate primitive Christianity and its lost element of healing." Certainly such a church was in answer to the need of this later age and it came, too, asking to be judged by its works. For a period of nearly fifty years now it has been tested and tried, and multitudes who have been healed by its ministry joyfully testify that it has fulfilled the promises of its Founder. So today, few subjects are receiving so much thoughtful consideration as the subject of Christian Science.

We are therefore favored in having with us this evening a gentleman who is both authorized and qualified to speak with authority on this subject, a member of the Board of Lectureship of the Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, who comes in response to an invitation from the local branch church, First Church of Christ, Scientist, of Glendale. I am pleased to introduce Mr. George Shaw Cook, C. S. B., of Chicago, Illinois."

Upon first hearing of Christian Science one will very naturally inquire: "What does it promise to do for me?" "Does it promise to heal me of disease, and to save me from sin?" "Will it give surcease to my sorrow, and lift from me the burden of care?" "Can it break for me the spell of poverty, limitation and fear?" "Is it able to say to the seething waves of mortal tumult, 'Be still!'"

Promises and Their Fulfillment.
Those who have become acquainted with Christian Science in its application to human needs are able to assure the inquirer that it does all of this, and more. Unnumbered thousands are bearing grateful witness to the fact that they have felt the beneficent touch of Christian Science in their lives and because of it they are being redeemed from the ills to which flesh is heir. Weekly in the Wednesday evening meetings of Christian Science churches testimony is being given to the healing and redemptive power of Christian Science. Month after month, and year after year, a never ending, uninterrupted stream of reliable evidence of the healing power of truth is going out to the world through the Christian Science periodicals. In these ways, and in other ways, the suffering, the sinning and the sorrowing are coming to know that there is "balm in Gilead."

Unmistakable and irrefutable proof is to be found on every hand of the power of spiritual truth to destroy human error. Any earnest seeker may with comparatively little effort learn that through Christian Science his fellow men have been thoroughly and permanently healed of chronic and acute disease by spiritual means without the use of material remedies. He will learn as the result of investigation that these cases of healing by scientific, mental treatment include many diseases ordinarily considered incurable. He will find that those numbered among the beneficiaries of Christian Science have been healed not merely of so-called functional and nervous troubles, but in many instances of those considered organic. He will ascertain that frequently these cases have been pronounced organic and incurable by reputable physicians, but that notwithstanding such pronouncement they have been healed perfectly and often quickly by Christian Science treatment. He will find that sometimes physicians are quite willing to give Christian Science credit for these marvelous cures.

The investigator will also learn that through Christian Science many have been rescued from lives of sin and vice, and that some have been lifted from the very depths of degradation and depravity. He will find that these persons have been restored to their rightful heritage of freedom from evil and have thus become useful members of society. The seeker for facts concerning the effect of Christian Science in human experience will find that many who

were not able to succeed in the struggle for existence, believing themselves to be the victims of environment and circumstances resulting in poverty and distress, are now finding their condition greatly improved because Christian Science has given them a new outlook on the world and a new insight into spiritual truth. He will find those who are glad to acknowledge that Christian Science has shown them how to be more honest, just, humble, loving, considerate—in a word, less selfish—than formerly. He will be told that the depressing atmosphere of discouragement and doubt has for many been transformed into an invigorating sense of courage and confidence.

Means of Deliverance.
If the investigator were to inquire how all this had come to pass, and could have a concrete answer from all the Christian Scientists on earth, that answer would be: "It is because we have come to know that God is good." A simple answer, is it not? And yet no more simple, and scarcely less profound, than the declaration of the apostle John that "God is love." (I John iv. 8.) If as John says, God is love, then God must also be infinitely good, for if we agree that God is infinite Love, surely we shall agree that infinite, universal, divine Love is identical with all that is good.

Christian Science teaches that God is not both good and evil, but that He is good only. Therefore, God, as understood in Christian Science, is all good and always good. He is never anything else than good nor ever anything else than infinite. So as a basis for our discussion of Christian Science in some of its phases, we have the fundamental proposition that God is good, not merely in a relative sense, but always and forever immutably and perfectly good.

God is also described with equal correctness by the terms Spirit, Life, Truth, and by the word already used, Love. Likewise, we may properly refer to God as infinite Mind or Principle. Each of these terms conveys a different shade of meaning. All taken together serve to enlarge our conception of Deity. It will be seen that that which is infinitely good is also loving, tender, steadfast, merciful and "unutterably kind" (Miscellaneous Writings, p. 312). That which is Love itself must be not only loving and good, but impartial, universal, changeless and enduring. That which is Life, the one creative Principle, is not only good and loving, but also eternal, indestructible, incorruptible, self-existent. That which is infinite Truth, Spirit, or Mind, is not only good, loving and eternal, but must also be conscious, active, omnipotent and omniscient. Thus through using some of these definitions of God and of His qualities or attributes, we find that we have greatly amplified our sense of God. Not that words can adequately describe the infinite and eternal, not that the employment of terms or phrases can change God; but the proper use of these terms can help us better to comprehend the divine nature.

God Is Infinite.
According to Christian Science this infinite God, divine Love, eternal Life, incorporeal Spirit or Mind, is the first and only cause or creator. Since there is but one cause, which is infinite and good, there can be but one kind of effect or manifestation, which must also be good and infinite. As the effect, or manifestation, of a creator that is infinite Spirit, or Mind, we can have as creation nothing less than the sum total of those spiritual ideas that express their divine origin. Therefore, we learn in Christian Science that the only real, enduring, indestructible universe is mental or spiritual and exists as the result or effect of the one infinitely good cause. This throws new light on the Scriptural declarations that God made all that was made" (John i. 3) and "God saw every thing that he had made, and, behold, it was very good" (Gen. i. 31).

The universal, complete expression of divine Mind, comprising all that exists by way of creation, necessarily includes individual spiritual man. This man reflects perfectly the infinite being called God. And this statement accords with the description of Genesis, which says that God made man in "His own image" and after His likeness. If God made man in His image, it is certain that man must be exactly like his creator. When we recall that the one only cause is divine Mind, Spirit, Life, Love, then we see that man in the image of his creator must be spiritual, eternal, loving and good, like his divine Principle.

Reviewing our discussion from this point, we see that we have, first, a perfectly good God who is infinite Spirit, or Mind. Next, we have a perfectly good universe which is spiritual or mental, and consists of those ideas that are good and true. Then we have a perfectly good man

included in this spiritual universe as the reflection or image of his infinite Father-Mother, divine Mind.

But, you say, what of a material universe and mortal man? What of the existence into which mortals seem to have been born and out of which they appear to pass into an uncertain and indefinite future state? What of sin and suffering and sickness and death? What of evil, and matter? We shall not ignore them, although we have already seen why in the best sense they cannot be real for the simple reason that they are not good. We have begun with a good cause, which made all "that was made." Effect must be like cause. Evil is not like good. Matter is not like Spirit. Therefore evil and matter, they cannot reasonably be attributed to the one good, spiritual cause.

Unreality of Evil.
Christian Science, in explaining the unreal nature of evil, first declares that matter, being non-intelligent, cannot be conscious of evil. It cannot of itself sin or have the impulse to sin. It cannot be hateful, dishonest or afraid. What, then, sins? God cannot behold or look upon evil or iniquity. He cannot have created evil. Therefore, He cannot know or be conscious of it. Christian Science consequently makes the positive assertion that evil, being utterly opposed to good and totally unlike good, does not exist in God or as the manifestation or effect of God. Christian Scientists do not, however, ignore the claim of sin to exist as a part of human experience. They understand that in this sense it must be recognized as a false belief, to be repented of and forsaken before it can be demonstrated to be what it really is—nothing. They understand that the scientific forsaking of sin and its forgiveness, or destruction, comes through Christ, the true, spiritual idea of God as being of "purer eyes than to behold evil" (Hab. i. 13).

Unreality of Matter.
Closely associated with the thought of evil is the thought of matter. Indeed, they cannot be dissociated. Where one is, the other will always be found. Mrs. Eddy's teaching that matter is unreal and that what appears to be material substance is but the concept of the human mind, is slowly, but surely, being recognized by material scientists to be correct. It has been said of what is called matter that it is "a suppositional vacuum in a hypothetical medium." This "hypothetical medium" is known as ether, of which it has been recently written by Edgar Lucien Larkin, "The most refined experiments ever made, those by Michelson, failed utterly to detect the existence of ether." Rather indefinite and unsatisfactory as a medium, is it not?

A noted Englishman, Mr. Balfour, at the London Congress of the Natural Scientists of Great Britain, is credited with having said: "The material sciences are now explaining matter by explaining it away." Those who have explained matter away, leaving nothing in its place but an indefinite hypothesis, have not done as well as Mrs. Eddy, the Discoverer and Founder of Christian Science, for she has explained the unreality of matter and of its supposed cause by revealing the one infinite, indivisible substance to be divine Mind and its ideas. (See Science and Health, p. 468).

We seem to exist in matter bodies which are part of a material universe. But what dependence may we place on the five physical senses which alone testify to the reality of this existence? At best the testimony of the physical senses is faulty and unreliable. Many familiar illustrations of the unreliability of sense testimony could be cited. Every one knows that the sense of taste is deceptive and sometimes makes very cold things seem hot. The sense of hearing often seems to make sound originate in some place where it does not. To illustrate the deceptive nature of the sense of touch, one need only cross the second finger over the index finger, and, after closing his eyes, roll a pencil or small round object on a flat surface. There will appear to be two of these round objects instead of one, if the sense testimony is left uncorrected.

If these senses cannot testify truly of material things, how can they be expected to give reliable evidence regarding those things which are spiritual and eternal? As a matter of fact, the physical senses have no higher conception of reality than that which can be weighed and measured, whereas spiritual sense recognizes as substance only that which is imperishable and infinite.

Beginning with the objective universe, many philosophers, reasoning inductively from effect back to cause, ultimately arrive by way of atoms, ions, or electrons, at what they call force or energy. Mrs. Eddy attributes to what she terms "mortal mind" all that seems to be material, evil and mortal. This term "mortal mind" is used by Mrs. Eddy, as the best term available, to describe the false sense of intelligence and life that claims to exist as the antipode of God. But she explains that the real Mind and creator is not mortal, but immortal; not human, but divine. Thus the world of sense-perception is left without a divine cause. The troublesome thing called matter is left outside the realm of divine reality. It is found to have no real authority and no enduring substance. Of this fleeting temporary sense of sub-

stance Paul said: "The things which are seen are temporal; but the things which are not seen are eternal" (II Cor. iv. 18).

Pain and Suffering Illusive.
Because the mortal, material body is not conscious, it cannot, apart from the human mind, be painful or sore or sick. The human body separate from the human mind can have no sensation. It is obvious then, that the sense of pain and suffering is in the human mind and not in the body. Many have doubtless had the experience of dreaming that they were in pain when the body was in what is regarded as a normal state. Christian Science shows that all suffering and disease is a dream from which the dreamer needs to be awakened. The first step in the direction of freedom from this evil dream of disease and mortality is to know that these evils are not of God. God never made anything that is not good. Furthermore, God, being always good, cannot make use of evil for any purpose or tolerate its existence in any form.

The Christian Scientist is willing to admit that suffering and disease seem to exist and that matter often seems quite real and very painful. He does not deny that to human sense this is so, but seeks to correct this false sense of things with the truth of being. He finds that by letting that Mind be in him that "was also in Christ Jesus," thereby substituting as consciousness ideas that are good for beliefs that are evil, he can free himself from the sense of pain and suffering, which is called sickness, as surely as he can, by a similar mental process, resist and overcome the temptation to sin. Evil, pain and disease are without divine authority or actual existence and cannot even seem to exist to one who is fully conscious of the allness and ever-presence of good.

Disease Unlawful.
The question is sometimes asked, "Since the Bible contains a record of human suffering, why does Christian Science, which is said to be founded upon the Scriptures, teach that suffering should be opposed?"

Christian Science is a restoration or rediscovery of primitive Christianity. It is based upon the life and works of Christ Jesus, who was the founder of Christianity. Christian Science, therefore, accepts Jesus as the master Christian. The question arises, "What was the attitude of Jesus toward human suffering?" A study of the gospels reveals the fact that while the attitude of Jesus toward the sufferer was one of great compassion, he evidently regarded suffering and disease as illegitimate. He declared that he came not to destroy, but to fulfill. He came, in other words, to do the will of the Father, God. We find that much of the ministry of Jesus consisted in his work of destroying sickness and disease. If Christ Jesus came to do the will of God, and spent his time largely in relieving mankind through the destruction of disease as well as of sin, then it can only be concluded that he regarded suffering as unlawful and contrary to the will of God.

Furthermore, Jesus said, "Ye shall know the truth, and the truth shall make you free" (John viii. 32). The question occurs, "Free from what?" The answer is again found in the record of his works among men. It is recorded that he went about "doing good" and "healing all manner of sickness and all manner of disease among the people." The conclusion again is that if the truth as taught by Christ Jesus makes free from sickness and disease, then these evils are the opposite of truth and should be resisted and cast out as being no part of the purpose and plan of God for man, who is created in His likeness. Christian Science teaches that the works of Jesus were done in accordance with divine law. It teaches, therefore, that the same works can be done again in the same way, for real law never varies in its operation.

Disease Has a Mental Cause.
What of the experience called sickness, or disease? Practically all are familiar with the fact recognized and admitted by physicians, that certain kinds of disease have a mental cause. Christian Science declares that all disease has a mental cause.

Human emotions, such as fear, anger, worry, hatred, etc., are now said to produce poisonous conditions on or in the physical body. If this is so, may not many cases of chronic poisoning in the human system be traceable to a chronic disposition to give way to the emotions? Is it not as reasonable to admit this as to recognize the fact that acute fear immediately manifests itself in a blanched face? If one is obliged to admit the mental cause of some kinds of physical disease, why not agree with Christian Science that, primarily, all disease is due to a mental cause? This does not mean that all disease is the result of conscious fear or of willful sin. Many types of disease are effects of latent fear, hereditary temperament, superstition, ignorance, or some of the generally accepted beliefs of the human mind which seem to operate as law. Suppose a man to be sick from one or more of these mental causes. Will drugs cure him? Is there any anti-toxin that will destroy hatred, or any serum that will prevent fear? Nothing but the knowledge that God is Love and that man as the image of God is in reality nothing less than the expression of Love, and therefore cannot and does not fear or hate, will

effect a permanent cure in such a case.

Fear Overcome.
All that is real exists as the effect of an intelligent cause, divine Mind. One has only to look at a badly frightened person to see that he manifests little or no intelligence while under the sway of fear. Therefore, we may conclude that fear is not the manifestation of an intelligent cause. It is plain that if one could be free from fear it would be greatly to his advantage. Many are ready to point out the evil effects of fear. They are even quite ready to urge their friends not to be afraid, but they are not always able to tell them why they have no need to fear.

Christian Scientists having discerned the fact that fear is not an attribute of God, are beginning to understand why it is no part of man, who is in the likeness of God. They reason that God is the only cause and is good. Fear is not good. Therefore, it is not the effect of the one only cause and consequently is without actual existence. There is no fear in the universe of God and nothing in that universe of which man could be afraid. There is no good in fear, for "fear hath torment," hence there is no God in it, and no truth in it. Christian Scientists do not, however, claim to have demonstrated as yet that they are entirely immune from fear; but they are much less fearful than formerly, and consequently, much less subject to disease and disaster.

Heredity Not Law.
No more discouraging and distressing thought confronts mankind than the belief in hereditary transmission of disease or of certain evil tendencies and traits. When the so-called law of heredity seems to have resulted in a vigorous constitution and relatively good traits of mind and character, we are apt to rejoice that the individual has derived these from his progenitors. But when the inheritance is that of diseased physique or evil mentality, there is regret and despair in place of rejoicing.

If we are to admit that good tendencies can be transmitted by heredity, we shall also be obliged to admit that evil is likewise transmissible. But Mrs. Eddy has freed thousands from bondage to belief in hereditary transmission by her teaching that "heredity is not a law" (Science and Health, page 178). Christian Science teaches, as Jesus taught that God is the only Father of man. It shows that in his true nature man is the offspring of Spirit. Man's origin being divine Mind and that Mind being infinitely good, man can have no evil heritage. His heritage is the heritage of good and of good only. He is therefore not subject to hereditary taint or contamination. Purity and perfection are man's divine right and are derived from his heavenly Father. Today in many instances Christian Science is healing so-called hereditary diseases and congenital defects through the understanding that there is no law of God to sustain them and that, therefore, they have no right to exist.

Man-Made Laws not Good.
The entire category of human beliefs, such, for example, as those that claim to control the effect of food, climate, contagion and many other generally accepted beliefs are being proved not to be law. The understanding that God is the only law maker shows at once that so-called material laws not being of his ordaining have no divine authority and no real power over man. Take the question of climatic influence. Christian Science teaches that it is not the weather, but the belief about it, that makes climate either injurious or otherwise. Consequently it shows that only right thinking will change wrong believing and free one from fear of climate or of its supposed effects.

Mrs. Eddy once treated a woman who breathed with difficulty when the wind was in the east. After treating her a few moments the breathing became natural. The wind, however, continued to blow directly from the east. (See Science and Health, p. 184.) This proves that it was not the direction of the wind, but the belief about it, that had made this woman's breathing difficult before she was relieved by Christian Science treatment. It is evident that such changes take place in consciousness and that the mental process which substitutes the correct idea for the mistaken belief and its supposed penalty, is not at all affected by the state of the weather. This tends to show that real atmosphere is mental or spiritual, as was indicated by Paul when he said, "For in him (Spirit or Mind) we live, and move, and have our being" (Acts xvii. 28).

The beliefs about infection and contagion are constantly changing, but practically all physicians agree that a calm and fearless state of thought is a great protection to the individual in times of epidemic or threatened epidemic of disease. Dr. Robert Collyer, the celebrated Unitarian minister, writing of his childhood experience and of his parents, said, "The most woeful fevers would break out in the cottages all about us, and decimate the neighbors, and they (his parents) were always at hand to help, going and coming as the sunshine goes and comes, never thinking of changing their garments. Yet they never caught a fever, nor did any of their children, nor felt the slightest touch of fear."

Health Is Universal.
It should be understood that the best "health insurance" one can have is real presence of Mind, or the God-given ability to think truly at all times and under all circumstances.

Health, according to Christian Science, is universal. It is mental wholeness or completeness. It is spiritual perfection. It is reflected by the individual. It does not originate with him, nor does it belong to one more than to another. It is like the light—impersonal and universal. For one to have it does not prevent all from sharing it.

Real wealth or true substance is not only universal, but indivisible. For one to possess it does not make it necessary, or possible, that others should be deprived of it. Even in daily experience it is seen, from a purely human point of view, that those qualities or characteristics which make for true success are intelligent activity, faithful persistence, courage, honesty, fidelity, etc. Christian Science shows that these qualities, if enduring, are not personal, but on the contrary, are attributes of the one infinite Mind or God. Therefore they are universal and may be reflected and manifested by all. Thus all may be conscious of the only enduring substance, and to be conscious of its ever-presence is to reflect and manifest divine Love, which, Mrs. Eddy says, "is impartial and universal in its adaptation and bestowals." (Science and Health, p. 13.) So real wealth, or abundance, is as free as the sunshine and as universally available as truth. But the human sense of substance has often been that which is finite and divisible—that which may be bought and sold, borrowed, leased and lost. Our greatest American poet, discriminating between the false and true sense of substance, said:

At the devil's booth all things are sold,
Each ounce of dross costs its ounce of gold;
For a cap and bells our lives we pay,
Bubbles we buy with a whole soul's tasking;
'Tis heaven alone that is given away,
'Tis only God may be had for the asking.
—Lowell.

Christ Jesus, while understanding the universal nature of good and that man as the son of God is eternally supplied with all good, nevertheless recognized that mankind needs food and raiment. But in pointing the true way to find sufficient for temporal needs he said, "Seek ye first the kingdom of God, and his righteousness; and all these things shall be added unto you." (Matthew vi. 33.) Right thinking brings a sense of abundance today as surely as it did two thousand years ago. It is well, however, to remember that Jesus did not say to seek first the things, and the kingdom of God would be added.

Frequently students of the gospels fail to make any distinction between the terms Christ and Jesus. They often consider these terms as being synonymous. Christ is the spiritual eternal, changeless, universal truth of God, which has been discerned in differing degrees in all ages, but which appeared in its perfection as an individual ideal in Christ Jesus. As the one who best understood and most perfectly demonstrated the Christ, Truth, in healing sickness and sin, Jesus was the Wayshower and Exemplar for mankind.

Prayer and Atonement.
Christian Science teaches its adherents to "pray without ceasing" and constantly to seek a higher and better understanding of the true nature of God, and of man as His likeness. Furthermore, it requires the demonstration of this understanding in right thinking and right living. Such thinking results in the lessening of sin and disease. This is the practical atonement to which Mrs. Eddy refers as "the exemplification of man's unity with God." (Science and Health, p. 18.) Christian Scientists believe that in no other way can they realize the full import of what has been mistakenly regarded as the vicarious atonement of Christ Jesus, but which was in fact that perfect demonstration of man's at-onement with God.

Those who are familiar with the true nature of Christian Science know that it is quite unlike every form of mesmerism. It even differs from what is ordinarily referred to as "faith cure." While Jesus in his ministry often required faith of those who were seeking to be healed, and Christian Science teaches that faith is in itself a desirable quality, yet something more than the exercise of what may be termed "blind faith" is involved in the practice of true Christian Scientists. The "prayer of faith" as understood in Christian Science is in fact the prayer of spiritual understanding. This prayer is the exact opposite of that form of mental treatment which consists in the exercise of human will power or the effort of one person to control or influence the thoughts of another by means of mesmerism or mental suggestion.

The prayer or treatment of the Christian Scientist is based upon his spiritual discernment of the fact that there is but one Mind. The mesmerist's endeavors are based upon the belief that there are minds many and that one of these many minds can influence another for good or evil. Herein lies the danger of mesmerism (Continued on Page Four)

A LECTURE ON CHRISTIAN SCIENCE

(Continued from Page 3)
 or mental suggestion; whereas the safety of Christian Science practice consists in its entire dependence upon the power of one infinite Mind, the effect of which can be only good.
 It will be seen that in depending upon the divine Mind, or God, to cast out and destroy the evils of sin and disease, the Christian Scientist is not endeavoring to hold his patient under any sort of so-called mental control. Nor is the Christian Science practitioner trying by means of thought transference or mental suggestion to change his patient's belief about sickness or disease. He is seeking through his spiritual understanding of the all-power of good to prove the unreality and powerlessness of evil—sin, fear, disease and death, thereby demonstrating man's freedom from such evil suggestions. There can be no reaction or other harmful effect from such treatment. To illustrate: Suppose one raises a window shade and lets the light of day into a darkened room, he does not feel that by so doing he has changed the darkness into light. Neither does he witness any conflict or strife between the light and darkness, for there is none. He merely has let the light come into the room that seemed dark and displace the sense of darkness, which is never anything more than the seeming absence of light. The activity of divine Mind in human consciousness destroying erroneous conditions of belief is as peaceful and harmless as the action of light coming into a darkened room and dispelling the darkness.

Mind Alone Heals
 It would be entirely inconsistent with the Principle of Christian Science to attempt to combine its practice with the practice of medicine. To the extent that material means were employed by the metaphysician and to the extent that he compromised with matter and placed his dependence thereon, to that extent would he stultify his faith in the power of Mind as the healer of disease. By such methods the practitioner would become like the "kingdom divided against itself," which, Christ Jesus said, "is brought to desolation" (Matt. xii., 25).

God said through Isaiah, "Come, now, and let us reason together," and Christian Scientists are beginning to understand that in extending this invitation to mankind God was not asking an impossible thing. Communion with the divine Mind which is called God is indeed possible to one who is on this plane of existence. This has been proved by successive revelations of truth to human kind through individuals whose spiritual perception was sufficiently clear to make it possible for them to become revelators. This succession of revelation has culminated in this age with the discovery of Christian Science which its Discoverer says reconciles reason and revelation.

Discovery and Discoverer
 Those who have had experience in mountain climbing will recall how, after toiling up out of the narrow confines of the canon along the winding trails, they have finally been able to reach the very summit of the range. Having attained this exalted viewpoint, they have paused to gaze on the beauty of the panorama spread before them. There among the foothills nestles the village from which they have so lately made their way. Yonder through the valley winds the ever-widening river. On the other side of the valley stretches another range of mountains, its snow-capped peaks glistening in the sunlight.

Nothing has been added to the landscape since the traveler reached the summit, but he has attained an eminence which enables him to discern that which was already there. This experience of the traveler illustrates the phenomenon of spiritual discovery. The seer and prophet in the spiritual realm becomes such because of his ability to rise in consciousness above the narrowness and limitation of material thinking to the altitude of broad, spiritual vision. Thus he attains the point of view that enables him to comprehend the facts of being and reveal them to others. He does not add to that which is, but he discerns that which always was. This describes the experience of spiritual leaders of all times.

Mary Baker Eddy did not invent anything in her discovery of Christian Science. She did not add to that which already was. She discovered the Principle underlying the spiritual healing of physical disease by the prophets, by Christ Jesus, and by the early Christians. As the result of her discovery she was able to restore to the world not only the Science of healing but the Science of being.

Mrs. Eddy
 Mrs. Eddy was born in Bow, N. H., July 16, 1821. She received her early education from her brother, Albert Baker, a graduate of Dartmouth College, and at the private school of Dyer H. Sanborn in Tilton, N. H. Always thoughtful and religious, she early united with the Congregational church and remained a member of that denomination until her discovery of Christian Science in 1866. In 1875, having first demonstrated the practical worth of her discovery, she wrote and published the Christian Science text-book, "Science and Health with Key to the Scriptures." In 1879 she organized the Christian Science Church, which was later reorganized as The First Church of Christ, Scientist, in Boston, Massachusetts. In 1881 Mrs. Eddy opened the Massachusetts Metaphysical College, the only institution of its kind having a charter from the Commonwealth. She wrote "Unity of Good," "Miscellaneous Writings" and other standard works on Christian Science. Mrs. Eddy established The Christian Science Publishing Society, which issues the denominational publications, including a daily newspaper, which publishes only that which is constructive and beneficial and which gives its readers a worldwide grasp of affairs.

Mrs. Eddy saw the fruition of her life-work and the extension of the movement which she founded in every part of the civilized world.

Mrs. Eddy has been declared by the Governor of her native State to have been New Hampshire's greatest woman, and truly she may be so regarded by reason of her achievements. But of all her wonderful works, that for which Christian Scientists revere and love her most is her discovery, declaration and demonstration of the life-giving truth that God is good. Therefore they say to you, "Acquaint now thyself with him, and be at peace" (Job, xxii., 21). And for the purpose of becoming more intelligently acquainted with God as the infinitely good and loving Principle of your being, they commend you to an earnest study of Mrs. Eddy's book "Science and Health with Key to the Scriptures."

This text-book of Christian Science is giving its students remarkable freedom from the besetments of evil and is bringing into their daily experience the practical proof that universal good is available to mankind in every hour of need. For this they are unspeakably grateful, and because of this they are encouraged to hope and believe that you may also become students of the Scriptures in the new light thrown on them by this wonderful book, for they know that "thereby good shall come unto thee."

NOTICE

Notice of the Recording of the Assessment and Diagram for the Laying Out and Opening of Orange Grove Avenue from the East Line of Adams Street to the Westerly Line of Verdugo Road, in the City of Glendale.

Notice is hereby given that the assessment and diagram for the laying out and opening of Orange Grove avenue from the East line of Adams street to the Westerly line of Verdugo Road, in accordance with Ordinance Number 226, was recorded in the office of the City Manager and Ex-officio Street Superintendent of the City of Glendale, on the 29th day of November, 1915.

The date of the first publication of the Notice is November 29, 1915. All sums levied in said assessment are due and payable immediately, and payment of said sums is to be made to me in my office at the City Hall in said City, within thirty days after the said date of the first publication of this notice, to-wit: On or before December 29, 1915.

All assessments not paid on or before the said 29th day of December, 1915, will become delinquent and thereupon 5 per cent upon the amount of each such assessment will be added thereto, and the property advertised for sale as provided for by law.

T. W. WATSON, City Manager and Ex-officio Street Superintendent of the City of Glendale. 84119

Walking is excellent exercise providing the act is engaged in for other reasons than to gain exercise.

NORTH GLENDALE

Mr. and Mrs. S. C. Maranville of North Maryland avenue entertained informally last Saturday evening. Cards were enjoyed during the evening, Five Hundred being the favored game. Late in the evening a delicious collation was served by the gracious hostess. The guests who had the pleasure of the occasion included Mr. and Mrs. Clem Brubaker of Patterson avenue, Mr. and Mrs. L. D. Eastman of 1615 Burchett St. and Mr. and Mrs. Charles Rathbone of Burchett street.

Mrs. J. W. Cousins of 1501 Lorraine street, with her sister, Mrs. Raphael Du Coe of New York city, who is her house guest, motored to Los Angeles Monday where they attended a matinee at one of the popular theaters.

Mr. and Mrs. J. W. West of 1333 Valley View road enjoyed attending the Orpheum in Los Angeles last Saturday evening.

Mrs. Bert J. Lyons and little son John of 1617 Ruth street were were guests of Mrs. Lyons' mother, Mrs. J. Mayer of Bellevue avenue, Los Angeles, on Monday of this week.

Miss Ella Steele of 1528 Lorraine street spent Sunday in Westgate, where she was the guest of Mrs. C. R. Thompson.

Mr. E. Bike of Pasadena was in North Glendale last Monday looking after his property interests on Dryden street.

Mr. and Mrs. Lewis Cadwallader of 1624 Ruth street motored to Alhambra last Sunday, where they were guests of Mrs. Cadwallader's parents, Mr. and Mrs. H. Largey.

The Epworth League society of the Casa Verdugo M. E. church and the Christmas entertainment committee met at the home of Mr. and Mrs. J. B. Clark on Viola avenue Monday evening to arrange for the Christmas treat and entertainment to be given Christmas week. After the business meeting a delightful social hour was enjoyed by all present.

The Parent-Teacher association of the Central Avenue school will hold their regular meeting on Thursday afternoon, Dec. 9. Professor Richardson D. White will speak on the Teachers' Institute and Mrs. Gerson Beatus of Los Angeles will render a piano solo. An interesting meeting is expected and a good attendance of parents and patrons is expected.

NOTICE TO WELL DRILLERS

Notice Calling for Bids for Sinking Wells.

Sealed proposals will be received by the Board of Trustees of the City of Glendale until 7:30 p. m. of Monday, December 13, 1915, for the sinking of an eight (8) foot concrete pit and the drilling of sixteen (16) inch wells for the City of Glendale. For further details, bidders are referred to specifications for said work on file in the office of the City Clerk of Glendale, California.

The Board of Trustees reserves the right to reject any and all bids. Glendale, California, November 30, 1915.

J. C. SHERER, City Clerk.

PERSONALS

Mr. F. T. Willett of 1010 Lomita avenue is confined to the house and reported quite ill.

Dr. and Mrs. C. E. Layler of 1427 Burchett street returned on Monday from Elsinore, where they had motored to spend Saturday and Sunday.

Mrs. Juana Neal Levy and Mr. and Mrs. R. W. Richards of Los Angeles were dinner guests in the J. C. McQuistin home at 1446 Pioneer Drive Monday evening.

Master Louis Legrand arrived from Fresno this morning and will make his home permanently with his father, Mr. and Mrs. Henry L. Legrand, 1442 West 3rd street.

Mrs. Rebecca Flint of Las Vegas, New Mexico, arrived in Glendale today and will spend the week with her son and daughter-in-law, Dr. and Mrs. James Luther Flint at 142 So. Central avenue.

Mr. Arthur MacBain of Minneapolis, Minn., will leave today for his return trip homeward after viewing both fairs and having a jolly visit in the home of his brother, the Harry G. MacBains at 608 Lomita avenue.

Glendale claimed two very charming visitors in the Misses Lena and Louise Potter of Santa Ana, who were week end guests of Miss Ruby Borthick, 1308 W. 7th street, over Saturday and Sunday.

Mr. W. D. McRae, field secretary of the Y. M. C. A., who returned home Saturday, went away again Monday to resume his field work in Tulare county at Lindsay in conjunction with the field secretary.

Mr. and Mrs. Peters, parents of Mrs. R. P. Foss, 1460 Salem street, have moved into their newly completed home on Third street, near Central. Mr. and Mrs. Peters came to Glendale from Iowa. They are charmed with this city and the climate and with Los Angeles and Southern California generally.

The J. S. Neels of 1451 Salem St. spent Sunday entertaining their house guests, Mr. and Mrs. Fred Gardner and daughter Helen of Seattle, Washington, with a motoring party. Towns of the San Fernando valley were visited, Pasadena and the beach cities also being included, the party partaking of a real fish dinner at Ocean Park.

UNITY CHAPTER ELECTION

Unity Chapter, No. 116, Royal Arch Masons, will meet in regular session Friday, Dec. 10, in the Masonic Temple for the purpose of holding the annual election of officers. During the year about to close the chapter has enjoyed unusual prosperity under the guidance of Mattison B. Jones high priest. There has been a considerable increase in membership throughout the year. The recent charity ball was a great success, the public having responded liberally to the invitation of the chapter.

RAINFALL TO DATE

Mr. H. E. Bartlett, 101 Brand boulevard, the local meteorological expert, reports that during the recent rainfall Glendale registered 1.46 inches. The first day of the storm gave a precipitation of 1.18 inches and the second day .28. This makes a total rainfall for the season of 2.89 as compared with the 1.61 for the same period last year.

POINSETTIAS AND HOLLY

Ushering in a gay whirl of pre-Christmas parties, one that proved most pleasing was the informal dancing party given by Mr. and Mrs. Leon A. Davis, formerly of Glendale, in their Los Angeles home at 3877 So. Hill street, on Saturday evening. Christmas greens, poinsettias and holly with garlands of smilax were massed with artistry about the rooms where the devotees of the terpsichorean diversion assembled. Among the thirty guests present were Mr. and Mrs. Harry G. MacBain, Mr. and Mrs. Henry L. Legrand, Mr. and Mrs. Harden J. Darnley of Glendale and Mr. Arthur MacBain of Minneapolis, Minn.

MRS. ANNA F. BRYAN

Mrs. Anna F. Bryan, who resided with her sister, Miss Marian Walker, 424 Everett St., passed away this morning. The remains will be shipped to Cincinnati, Ohio, for burial, the Scovern-Letton-Frey Undertaking company being in charge of the arrangements.

BIRTH

This morning, December 7th, a little son came to gladden the J. J. Monahan home at 848 Dryden street. It is reported from the Sisters' hospital, Los Angeles, that mother and son are doing nicely.

ACTOR FATALLY INJURED

Glen Gano Falls From Fourth Street Bridge in Los Angeles

Special to Glendale Evening News. LOS ANGELES, Dec. 7.—Glen Gano, a motion picture actor, fell from the Fourth street bridge here today, while acting in a comedy. He was fatally injured.

ADDRESS TO CONGRESS

PRESIDENT WILSON STANDS FOR "PREPAREDNESS," PAN-AMERICANISM AND PEACE

(Special Service to Glendale Evening News)

WASHINGTON, D. C., Dec. 7.—Long before the session of congress opened this morning practically every seat was filled. Long lines of people were waiting outside. The White House reserved sections were also occupied by members and guests of the president's household. The interest of the moment naturally centered on the president's address, which was listened to with profound attention.

President Wilson's address opened with a reference to the war in Europe and the neutrality of the United States. He then spoke of the Monroe Doctrine and the benefit it had been to South America. "All the governments of America," he said, "so far as we are concerned, stand upon a footing of genuine equality and unquestioned independence."

Speaking of Mexico he said: "Her fortunes are in her own hands. We have proved that we will not take advantage of her in her distress and undertake to impose on her a government of our choosing. We will aid and befriend Mexico, but we will not coerce her. The states of America are not hostile rivals, but co-operating friends. This is Pan-Americanism."

Speaking of preparedness the president said: "If our citizens are ever to fight effectively upon a sudden summons, they must know how modern fighting is done, and what to do when the summons comes to render themselves immediately available and immediately effective. The government must supply them with the training." The government's plans contemplate an increase in the regular army to a strength of 7136 officers and 134,707 enlisted men, or 141,843 all told. This army will be supplemented by a force of 400,000 disciplined citizens, raised in increments of 133,000 a year throughout a period of three years. These men would be bound to come to the colors at call at any time throughout an additional furlough time of three years.

The program for the navy is similarly conceived. It contemplates the construction within five years of ten battleships, six battle cruisers, ten scout cruisers, fifty destroyers, fifteen fleet submarines, eighty-five coast submarines, four gunboats, one hospital ship, two ammunition ships, two fuel oil ships and one repair ship.

The secretary of the navy is also asking for the immediate addition to the personnel of the navy of 7500 sailors, 2500 apprentice seamen and 1500 marines. The number of midshipmen at Annapolis would be increased by at least 300. The aviation corps will be added to. By 1921 under this plan the United States would have 27 first-line battleships, six battle cruisers, twenty-five battleships of the second line, 10 armored cruisers, 13 scout cruisers, five first-class cruisers, three second-class cruisers, 10 third-class cruisers, 108 destroyers, 18 fleet submarines, 6 monitors, 157 coast submarines, 20 gunboats, 4 supply ships, 4 transports, 3 tenders, 8 special vessels and 2 ammunition ships.

The president advocated strongly the building up of an American merchant fleet. The government, he said, should facilitate in every possible way the building, purchase and registration of American ships. The government, he said, should assume the initial risks of opening up the trade arteries, especially with South America.

He announced that bills for the improvement of the government of the Philippines and for the rendering of fuller political justice to the people of Porto Rico would be submitted. He also urged the continuance of all the present taxes or their equivalents, and the confining of the attention of congress to providing \$112,000,000 of new revenue. He proposed a 1 per cent tax on gasoline and naphtha, 50 cents per horsepower on automobiles and internal explosion engines, stamp tax on bank cheques, 25 cents per ton on pig iron, 50 cents per ton on fabricated steel and iron. He said that the new bills should be paid by internal taxation and that the industry of this generation should pay the bills of this generation.

President Wilson then dealt emphatically with the treasonable practices of American citizens of foreign birth lately manifested in attempts to disable American shipping and munitions factories. He urged congress to provide legislation dealing adequately with these crimes. He advocated rural credits and a committee of inquiry on the transportation problem. The burden of the message was "national efficiency and security."

FIRE ON AMERICAN SHIP

Special to Glendale Evening News. WASHINGTON, D. C., Dec. 7.—Secretary Lansing was informed today by cable that an Austrian submarine had attacked the American oil tanker Petrolite, firing several shots at it. One of these shots took effect on the vessel and an American sailor was wounded.

MEETING OF P. E. O.

Chapter L of the P. E. O. Sisterhood will hold its next meeting Wednesday at 10:30 at the home of Mrs. Edith Ellis, 541 S. Kenwood. This will be an all-day meeting. Important business will be transacted and a full attendance is requested.

RIVAL IN THE DARK

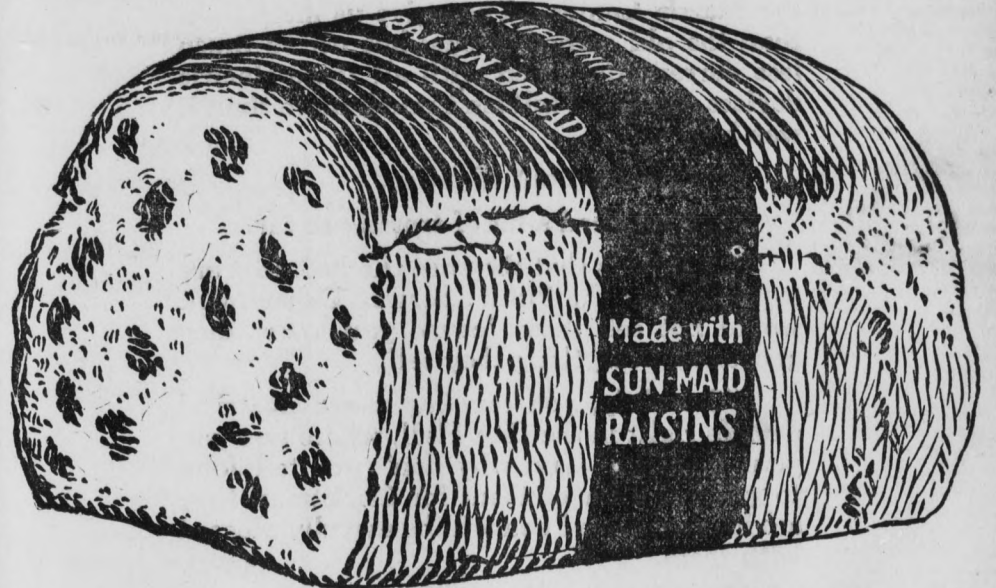

Consternation reigns among the ranks of the prospective competitors in the Glendale-Tropico Poultry and Pet Association's show. Their entries have been made and everyone has been looking for some time to having a fine exhibit at the show. Meantime an enterprising individual has been paying visits in the dark to the poultry yards of the various exhibitors and with great taste and care has selected the best specimens and made off with them. It is now rumored that this individual is a rival in the dark who will be the most dangerous competitor in the field. Judging from the large selection he has been gathering from the different pens he might easily take first prize in every class.

PACIFIC AVENUE BAZAAR

After many weeks of hard work the ladies of the Parent-Teacher association of the Pacific Avenue school have completed their arrangements for a Fathers' night and bazaar to be held in the school Friday, Dec. 10. A delightful program has been prepared by the teachers. The affair will begin at 7:30 p. m. After the program a bazaar will be opened, at which can be purchased many useful and artistic articles for Christmas. Cooked food and home-made candies will also be sold. Admission is free. The proceeds go to aid the work of the Parent-Teacher association. All are cordially invited.

"YES drive over right away—I'll be ready.
"My housework! Oh, that's all done.

"How do I do it? I just let electricity do my work nowadays. I have an electric dish washer and an electric clothes washer, and iron with my new electric iron.

"Sweeping and cleaning? Simplest thing in the world with our electric vacuum cleaner.

"And say, Ethel, Jack and I are cooking our breakfasts right at the table with our electric toaster stove and coffee percolator.

"Cost much to run them? No, you see we use Mazda Lamps. They give us more light than the old carbon lamps; but use so much less current that even with all these electric devices, our light bill isn't much more than it was before.

"Do they get out of order?

"Haven't had a bit of trouble so far.

"Jack says that they are the best that are to be had, or the Public Service Department would not sell them, 'cause you know they guarantee everything they sell.

"Certainly, you can buy these electrical devices right in the City Hall, where you pay your light bill—say, why don't you tell John to get you some of them for Christmas, they are ideal gifts and you will be awfully pleased with them.

"I'll be ready when you come. Goodbye."

"DO IT ELECTRICALLY"

POULTRY SHOW PLANS

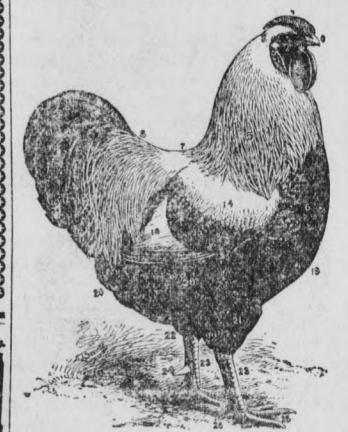

GLENDALE - TROPICO ASSOCIATION EXHIBITION OPENS THURSDAY IN HOTEL GRAY BLOCK

Arrangements have now been thoroughly completed for the opening of the Glendale-Tropico Poultry and Pet Stock Association's show. The entries are complete and they are gratifying both in number and variety. It would be well for the public to note that the location of the show has been changed. In ads and on the official catalogue it has been intimated that the show would be held in the Shropshire Garage. That building has been sold since the arrangement was made and the show will now be held in the empty store of the Hotel Gray block, corner Broadway and Isabel.

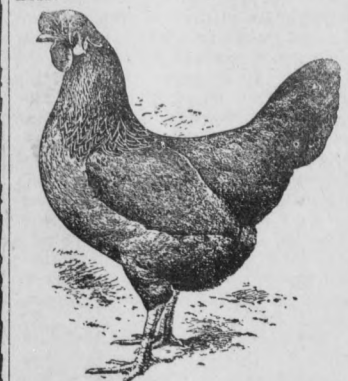

Promptly, on Thursday, at 1 p. m., the show will be opened and the public admitted. At 12 noon a banquet will be given in the Hotel Gray to the judges. Any exhibitor who desires to attend this banquet can obtain a ticket from the secretary. All exhibitors will be welcomed.

Every day after Thursday—Friday and Saturday—the show will be opened at 10 a. m. Each day the show will close at 10 p. m. This year's show will be considerably in advance of that of last year. Five hundred specimens will be on exhibition. These will be the very best of their kinds. Glendale has some of the most renowned breeders in California, and also some of national fame.

Among the curiosities of the exhibits will be wild ducks and three or four specimens of pheasants. In the rabbit section there will be shown rabbits of every kind, Flemish Giants, Belgian Hares, New Zealand and Red Rabbits, Himalayas, Angoras, Dutch, Polish, English Lops and others. In Glendale there is quite a large community of rabbit breeders and the show should bring out an interesting selection.

Mr. Walter M. Ross, secretary of the association, said to a representative of The Glendale Evening News: "I expect that this will be one of the best shows ever held in Southern California. We certainly have quality in poultry, pigeons and rabbits in Glendale. Our breeders are careful and thoroughly up to modern business methods. They are not amateurs in any way; but most of them are making their living at the business."

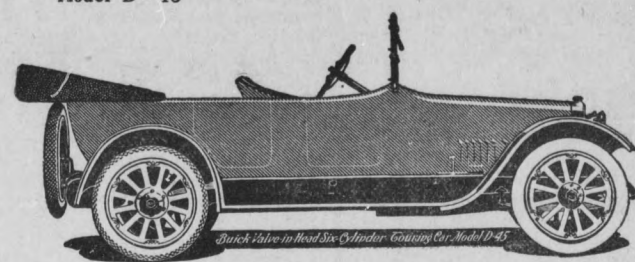

"Squab-raising is quite a business in Glendale and the breeders have succeeded in raising many special varieties. Some of the local breeders cannot be surpassed anywhere for their cleverness in crossing different varieties and bringing out new ones. Geese will also be on exhibition and will receive prizes. Christmas time is approaching and there are many fine specimens to be seen.

"In the division of cats there will be a great variety. Classes have been provided for all long-haired varieties. It is expected that there will be 35 well-bred Persian cats of every variety on hand.

"Glendale has even been enterprising enough to enter parrots to compete in their class. Both these and canaries will be judged by breed and marking.

"Probably the biggest class of poultry entries will be the Plymouth Rocks, Barred Rocks, Partridge

Rocks and others. There are 75 entries in this class. Rhode Island Reds will run a good second with 50 entries. Then come the Wyandottes, Leghorns of all kinds and a very large selection of Campines, the Belgian variety. Some of the Campines that will be seen here this week have just come back from the World's Poultry Show.

"Mr. Whitten of Kenneth Road ranch will have a fine selection of Orpingtons, which will be one of the most striking features at the show. Mr. Whitten has a wide reputation for the birds he breeds. They are of

all varieties, white, black, buff and the latest, blue. The blue Orpington has been imported from England by Mr. C. H. Young of 215 E. Fifth street.

"In every way this will be an interesting show. The association has appointed nine competent judges and every justice will be done exhibitors. The public will be admitted free."

NEW ICE PLANT

Considerable progress is being made in the erection of the building for the new ice plant that is to be installed by the Valley Supply company. The new plant is being built

on the ground owned by H. P. Coker, 123 E. Third street. It is a large and substantial building and is being constructed to contain a 20-ton plant. The first installment of machinery is expected to arrive about Dec. 18 and from time to time the rest of the machinery will be put in place. This will be an up-to-date plant in every

respect and the water from which the ice will be made will be filtered and distilled according to the most approved methods.
